EUR 12.00 (old: EUR 18.00)

Medical cannabis ramping up // recreational only an optionality

Stellar sales growth in FY '22. Cantourage reported 170% yoy preliminary sales growth, reaching € 14m. This was driven by strong demand growth for its dronabinol solutions and the expanding portfolio of cannabis flowers. The adjusted EBITDA (excl. IPO-related one-offs) stood at roughly € -1.2m and the reported EBITDA at € -1.8m. While the operating loss increased compared to FY '21 (€ -0.6m), this is solely the result of costs related to the ramp-up of its "Fast Track Access" platform.

"Fast Track Access" platform is quickly gaining traction. Mind you, Cantourage enables producers from around the world to become part of the growing European medical cannabis market faster, easier and more cost-effectively. In March, Cantourage onboarded its 20th medical cannabis product since its launch in June 2021, "Gelato #33" from the Canadian grower LOT420. Within a few weeks, pharmacies sold out. This was a major driver behind the **preliminary 95% yoy sales growth in Q1** (eNuW: € 4.7m). With a growing number of strains on its platform (signed contracts with > 40 cultivators), the company is seen to report notably increasing monthly sales figures. We hence expect the company to be **well on track to more than double its top-line in FY '23e**.

Watered-down cannabis legalization. The previous plan, which would have allowed cannabis to be sold in licensed stores, was revised following concerns from the EU. According to the revised plan, the first step will allow adults to form clubs (<500 members) for community cultivation. The second step will allow a small number of licensed shops in certain regions to commercially distribute cannabis (trials). During the near-term, we see no notable revenue opportunities in the recreational space and therefore exclude all related sales from our model (NuW old: € 14m in FY '24e). Note that positive results of the trials could potentially lead to an increasing number of licensed shops. Positively, **Cantourage is able to rely on a strongly medical business**, for which we see only little to no risk from "cannabis clubs".

What's more, **Cantourage hired Bernd Fischer as CFO of the group.** Prior to joining Cantourage, he worked as VP of Finance at the Berlin Brands Group and CFO at Spiele Max and elumeo. Thanks to his +15 years of experience, we regard him as sensible addition to the management team.

In sum, the current valuation of 4.5x EV/sales is seen to adequately reflect the company's strong growth prospects during the mid-term. We **reiterate HOLD with a new € 12 PT** (old: € 18) based on DCF.

Disclosures

Disclosures regarding research publications of NuWays AG pursuant to section 85 of the German Securities Trading Act (WpHG)

Indication of conflict of interest

It is essential that any research recommendation is fairly presented and discloses interests of indicates relevant conflicts of interest. Pursuant to section 85 of the German Securities Trading Act (WpHG) a research report has to point out possible conflicts of interest in connection with the analysed company. A conflict of interest is presumed to exist in particular if NuWays AG

- (1) or any other person belonging to the same group with it was part of a consortium within the past twelve months that issued the financial instruments of the analysed company by way of a public offer.
- (2) or any other person belonging to the same group with it has entered into an agreement on the production of the research report with the analysed company.
- (3) or any other person belonging to the same group with it has been party to an agreement on the provision of investment banking services with the analysed company or have received services or a promise of services under the term of such an agreement within the past twelve month.
- (4) The analysed company holds 5% or more of the share capital of NuWays AG.
- (5) holds (a) a net short position or (b) a net long position of 0.5% of the outstanding share capital of the analysed company.
- (6) or any other person belonging to the same group with it is a market maker or liquidity provider in the financial instruments of the issuer.
- (7) or the analyst has any other significant financial interests relating to the analysed company such as, for example, exercising mandates in the interest of the analysed company.
- (8) The research report has been made available to the analysed company prior to its publication. Thereafter, only factual changes have been made to the report.

Conflicts of interest that existed at the time when this research report was published:

Cantourage Group SE	20.12.2022	Sandherr, Christian	Hold	EUR 18.00	EUR 15.80

1. General Information/Liabilities

This research report has been produced for the information purposes of institutional investors only, and is not in any way a personal recommendation, offer or solicitation to buy or sell the financial instruments mentioned herein. The document is confidential and is made available by NuWays AG exclusively to selected recipients in the European Union (EU) or, in individual cases, also in other countries. It is not allowed to pass the research report on to persons other than the intended recipient without the permission of NuWays AG. Reproduction of this document, in whole or in part, is not permitted without prior permission NuWays AG. All rights reserved.

Under no circumstances shall NuWays AG, any of its employees involved in the preparation, have any liability for possible errors or incompleteness of the information included in this research report – neither in relation to indirect or direct nor consequential damages. Liability for damages arising either directly or as a consequence of the use of information, opinions and estimates is also excluded. Past performance of a financial instrument is not necessarily indicative of future performance.

2. Responsibilities

This research report was prepared by the research analyst named on the front page (the "Producer"). The Producer is solely responsible for the views and estimates expressed in this report. The report has been prepared independently. The content of the research report was not influenced by the issuer of the analysed financial instrument at any time. It may be possible that parts of the research report were handed out to the issuer for information purposes prior to the publication without any major amendments being made thereafter.

3. Organisational Requirements

NuWays AG took internal organisational and regulative precautions to avoid or accordingly disclose possible conflicts of interest in connection with the preparation and distribution of the research report. All members of NuWays AG involved in the preparation of the research report are subject to internal compliance regulations. No part of the Producer's compensation is directly or indirectly related to the preparation of this financial analysis. In case a research analyst or a closely related person is confronted with a conflict of interest, the research analyst is restricted from covering this company.

4. Information Concerning the Methods of Valuation/Update

The determination of the fair value per share, i.e. the price target, and the resultant rating is done on the basis of the adjusted free cash flow (adj. FCF) method and on the basis of the discounted cash flow – DCF model. Furthermore, a peer group comparison is made.

The adj. FCF method is based on the assumption that investors purchase assets only at a price (enterprise value) at which the operating cash flow return after taxes on this investment exceeds their opportunity costs in the form of a hurdle rate of 7.5%. The operating cash flow is calculated as EBITDA less maintenance capex and taxes.

Within the framework of the DCF approach, the future free cash flows are calculated initially on the basis of a fictitious capital structure of 100% equity, i.e. interest and repayments on debt capital are not factored in initially. The adjustment towards the actual capital structure is done by discounting the calculated free cash flows with the weighted average cost of capital (WACC), which takes into account both the cost of equity capital and the cost of debt. After discounting, the calculated total enterprise value is reduced by the interest-bearing debt capital in order to arrive at the equity value.

NuWays AG uses the following three-step rating system for the analysed companies:

Buy: Sustainable upside potential of more than 20% within 12 months

Sell: Sustainable downside potential of more than 20% within 12 months.

Hold: Upside/downside potential is limited. No immediate catalyst visible.

The decision on the choice of the financial instruments analysed in this document was solely made by NuWays AG. The opinions and estimates in this research report are subject to change without notice. It is within the discretion of NuWays AG whether and when it publishes an update to this research report, but in general updates are created on a regular basis, after 6 months at the latest. A sensitivity analysis is included and published in company's initial studies.

5. Major Sources of Information

Part of the information required for this research report was made available by the issuer of the financial instrument. Furthermore, this report is based on publicly available sources (such as, for example, Bloomberg, Reuters, VWD-Trader and the relevant daily press) believed to be reliable. NuWays AG has checked the information for plausibility but not for accuracy or completeness.

6. Competent Supervisory Authority

NuWays AG is an affiliated company of Hauck Aufhäuser Lampe Privatbank AG which is under supervision of the BaFin – German Federal Financial Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht), Graurheindorfer Straße 108, 53117 Bonn and Marie-Curie-Straße 24 – 28, 60439 Frankfurt a.M.

7. Specific Comments for Recipients Outside of Germany

This research report is subject to the law of the Federal Republic of Germany and the European Union (EU). The distribution of this information to other states in particular to the USA, Canada, Australia and Japan may be restricted or prohibited by the laws applicable within this state.

8. Miscellaneous

According to Article 4(1) No. i of the delegated regulation 2016/958 supplementing regulation 596/2014 of the European Parliament, further information regarding investment recommendations of the last 12 months are published under:

Date of publication creation: 17/04/2023 07:56 AM

Date of publication dissemination: 17/04/2023 07:57 AM
